"Professional Voices for Health"

The Speakers Bureau of Hallmark Health

Hallmark Health's Community Benefits mission is to help build a strong, vibrant and healthy community. Let our engaging speakers assist your organization in providing presentations that focus on improving the health of residents in the workplace and in the community.

Presentation topics can be tailored to your organization's particular interests, or we will be happy to consult with you to suggest topics for your group that focus on the health needs most common in our communities. Topics such as understanding your risks for heart disease and stroke, managing stress, osteoporosis prevention and managing chronic illnesses such as diabetes are commonly requested topics. Child safety and growth and development are also popular.

For additional information or to schedule a presentation for your organization, please contact Nancy Ward in Community Services at nward@hallmarkhealth.org or call Nancy at (781) 338-7556.

Please allow a minimum of four weeks for scheduling your program. There is no cost for scheduling a speaker.
