

THE AREA'S MOST VITAL SIGN.

Lawrence Memorial Hospital of Medford. When it comes to caring for the community with expertise and advancements, we've never been stronger.

Our strength starts with our distinguished physicians who collaborate around the patient. They're trained at some of the finest medical institutions in the country. They are supported by Hallmark Health's investment in electronic medical records which speeds access to crucial patient medical data. They work with some of the latest medical diagnostic technology, and partner with highly skilled and trained nurses.

We're connected to the vital services the community needs, too. This includes an Emergency Department committed to excellence, a nationally recognized Center for Weight Management and Weight Loss Surgery, the state's leading geriatric medical psychiatric program and The Joslin Diabetes Center Affiliate at Hallmark Health.

At Lawrence Memorial Hospital of Medford, our pulse is strong, and our ability to keep you healthy? Even stronger. To learn more visit hallmarkhealth.org.
